

I am opposed to the expansion of LPFM that will allow them to take priority over current FM translator service. This could cause a loss of my favorite station, KLOVE. I have small children I am trying to raise with a high moral standard and KLOVE is an integral part of our lives. I can have it on in our home and not worry about what my kids might hear. I urge you to adopt policy that will enable KLOVE to remain in my home. Thank you.
